

Training **Advanced Level**

The **CadnaA** Advanced training focuses on the efficient handling of **CadnaA**. All techniques that are essential for your efficient daily work, like import of data from different sources, massive modifications, use of conditions and project management, are discussed and trained in detail by use of examples.

The training has been designed in such a way that participants will practice every topic by means of simple **CadnaA** files.

WHO SHOULD ATTEND?

Requires the prior attendance of the seminar CadnaA Basic Training or equivalent knowledge.

The completion of the CadnaA Webtutorial is not a requisite but highly recommended.

TRAINING WORKFLOW

1. Introduction to the topic / exercise by the trainer
2. Trainees complete the exercise step by step
3. The trainer repeats the exercise
4. Short Q&A and summary
